ABOUT ME

Computer & Telecommunications Network Engineering (TJKT) student actively deepening network infrastructure knowledge through hands-on experimentation in a personal lab environment. Using MikroTik as the primary platform, I have implemented various technical scenarios and network topologies commonly practiced in both lab and industry settings.

WORK EXPERIENCE

Jul 2025 - Dec 2025 | GMEDIA - Internship | Network Operations Technician
- Optimized Network using MikroTik RouterOS
- Monitored Network performance with MRTG and The Dude
- Configured QoS for priority traffic using bandwith management rules

EDUCATION

Jul 2023 - Present | Student | Vocational High School of Prestasi Prima
Major in Computer & Telecommunications Network Engineering
Relevant Course : Network Fundamentals, Routing & Switching, Network Security

ADDITIONAL INFORMATION

- **Certification** : - MikroTik Certified Network Associate (MTCNA) - Issued Oct 2025
                      - MikroTik Certified Routing Engineer (MTCRE) - Issued Dec 2025
                      - Completed 'Network Fundamental' Course on ID-Networkers
                      - Completed 'Linux Administration' Course on ID-Networkers
                      - Completed 'Operating PNet LAB' Course on ID-Networkers
                      - Completed 'Cisco Basic' Course on ID-Networkers
- **Technical Skills :** Networking : TCP/IP, VLAN, OSPF, NAT, DHCP, DNS, QoS
